EDUCATION

Netaji Subhas University of Technology (NSUT)   New Delhi, India
B.Tech Computer Science and Engineering   July 2021 - July 2025
CGPA: 7.61 (**Rank** : in **Top 10**)

Vardhaman International School | CBSE   Jaipur, India
Class XII *Marks:* 87 % (**Rank 3/62**)   May 2019 - May 2020

SKILLS

Programming Languages:	C++, HTML5, CSS3, JavaScript.
Libraries/Frameworks:	server-side logic, NodeJS, ExpressJS, ReactJS, Redux, Tailwind CSS, Socket.io, PeerJS.
Tools/Platforms:	Visual Studio Code, Github, Git
Databases:	SQL, NoSQL, MySQL, MongoDB.
Computer Fundamentals:	Operating System, Database Management System, Data Structure and Algorithms, Object-Oriented Programming(OOPS)
Other Skills:	attention to detail, English, problem-solving, communication.

EXPERIENCE

Roxwell Technologies Pvt. Ltd. | Certificate | Internship   June 2024 - Aug 2024
Position: Full Stack Developer

- Implemented search bar along with complete functionality(API, filtering, etc) aligning with the project's requirements boosting user interaction by 35%.
- Worked in a team of 4 finishing the work before deadlines.
- Engineered a robust RESTful API system and caching mechanism that efficiently managed over **10,000 daily requests**, integrating stringent security protocols to minimize **unauthorized access by 99%**.

PROJECTS

Whatsapp Clone | Link   MERN stack

- With this project I am aiming to learn **real time communication via text and voice(audio and video), multimedia sharing, security, RESTful APIs, State Management**.
- Designed **APIs and implemented scalable website architecture**, enabling real-time messaging and user authentication with optimized performance.
- Integrated secure user **authentication using JWT**, and employed **Redux** resulting in the reduction of state management-related bugs and unauthorized access by 80%.
- Integrated video calling functionality using simple-peer, enhancing user engagement and interactivity with **cross-browser compatibility**.

GoShopping| Link   *MERN Stack*

- **Built a full-stack e-commerce web application** using the MERN stack to provide a seamless user experience for online shopping.
- Implemented **authentication (login/sign-up)** with secure JWT-based user verification and password encryption using bcrypt.js.
- Developed RESTful APIs for backend functionalities such as product management, user authentication, order processing, and shopping cart operations

Forkify App | Link   *JavaScript, HTML , CSS*

- With this project I am aiming to learning MVC model, asynchronous programming and object oriented programming in JS.
- Designed a recipe search application with a sleek and intuitive user interface.
- Implemented API integration for asynchronous data fetching, enhancing data **loading speed by 25%**.
- Enabled partial rendering **(pagination)** of search results and Added custom JavaScript features **(virtual DOM)** , providing users with a seamless experience and reducing page reload times by 40

POSITIONS OF RESPONSIBILITY

- **Executive member of codechef NSUT**, contribted in organising 10+ contests in the campus Fests.
- **Core Member**, Juvenile Care NGO, contributed in 20+ drives to **educate underprivileged children.**

AWARDS & ACHIEVEMENTS

- Ranked in **Top 10** against **100+ teams** in *FrontEnd Fiesta*, a competition organised by IEEE (2023).
- Achieved **Special Achiever** award for academic and extracurricular achievements for **7** consecutive yrs.
- Solved over 900 problems on leetcode and achieved **Peak rating of 1783**.
- **Winner & Captain** of basketball team, represented school at the **inter school** tournaments.
